# 【Academic Support Class】

"Daily conversations are not a problem, but they can't keep up with the classroom content..."!

We often receive inquiries like this from parents and school teachers.

In our school, we use elementary and junior high school textbooks to teach school subjects.

By studying subjects like Japanese, Math, Science, Social Studies, and English, students can not only acquire academic knowledge but also learn the Japanese necessary for studying these subjects.

Additionally, for subjects they find difficult, they can study at a lower grade level."
